

Professional Development Log Portal

NBCOT's online **Professional Development Log Portal** has been created to help you log and track the 36 Professional Development Units (PDU) needed to maintain current certification status with NBCOT.

Rather than maintaining a hard copy log of your professional development activities, this online tool allows you to enter and maintain an electronic log which you can access 24 hours a day (please retain verification documentation for your records).

Start tracking your professional development activities using the new tool by clicking the link below and creating an account:

[NBCOT Professional Development Log Portal](#)

Please note this online tool is optional; it is being made available for your convenience.
